Welcome to uTrade - Your Gateway to the Financial Trading Revolution

uTrade is not just a crypto platform - it's a visionary ecosystem that redefines how individuals grow, protect, and multiply their wealth. Amid a sea of short-lived hype projects, uTrade emerges as a beacon of real-world utility, technological innovation, and community empowerment.

We combine cutting-edge AI trading bots, advanced copy trading, powerful tokenomics, and community profit sharing - all in one holistic platform. Whether you're an experienced trader or a newcomer, uTrade empowers you with secure, effective, and user-friendly tools.

Why uTrade? What Makes It Unique?

Advanced Copy Trading

Access only to the most consistent and verified global traders.

AI tracks their historical risk-adjusted returns, drawdowns, and trade timing.

Forget hype-driven influencers - follow data-backed strategists with audited performance.

AI Trading Bots with Human-Like Adaptability

Real-time analysis of hundreds of market factors: RSI, MACD, SMC, news, macro data.

Bots trade across timeframes and self-optimize to volatility and institutional activity.

Trade like a quant fund manager - zero coding needed.

NFT Integration with Real Utility

Gold, Silver, and Bronze uShark NFTs act as profit-yielding instruments.

Monthly USDT yields - based on platform performance - not speculative pricing.

Passive income from actual revenue, not token inflation.

Community Profit Distribution

50% of all profits go to NFT holders.

Distribution Example (If \$100K monthly profit):

Gold (500 NFTs - 57% share): \$28,500 total / \$57 per NFT

Silver (1,500 NFTs - 29% share): \$14,500 total / \$9.67 per NFT

Bronze (3,000 NFTs - 14% share): \$7,000 total / \$2.33 per NFT

Powerful Tokenomics with Deflation Built In

Total supply: 50 million UTT.

45% locked in treasury for 24 months.

10% of profits allocated to token buybacks and burns.

Scarcity and growing demand = price pressure.

Monthly Profit Distribution per NFT

Example Based on a \$100,000 monthly profit:

- Gold (500 NFTs, 57% share):

Total: \$28,500 \$57 per NFT

- Silver (1,500 NFTs, 29% share):

Total: \$14,500 \$9.67 per NFT

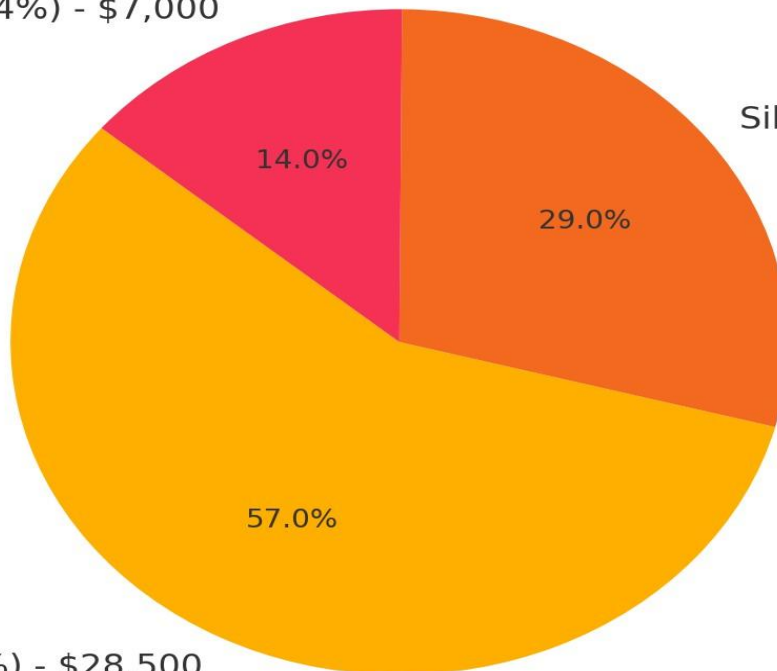

- Bronze (3,000 NFTs, 14% share):

Total: \$7,000 \$2.33 per NFT

Monthly Profit Distribution (\$100K Total)

Bronze (14%) - \$7,000

Silver (29%) - \$14,500

Gold (57%) - \$28,500

This demonstrates the passive income potential from uShark NFTs based on real revenue, not token inflation.
